Introduction to Safer Recruitment - Pilot Session

End of Session Feedback

What went well?

Really informative session/useful information (x3)

SO useful

Well delivered session – friendly, upbeat, positive facilitator

Covered a lot in a short time

Great to have the print outs to 'hang my thoughts on'

Session length good for style of session

Really clearly delivered

Liked time for questions and clarification

Found real life examples so helpful

Perfect balance which included staff and volunteers

Really helpful to have the space to work through a live example we are dealing with at present

Delivery good and the time frame and pace felt good

Thought provoking

Even better if?

We could learn from other organisations around how their monthly volunteer recruitment days work

More on job description and application – how to make it easy to complete while getting the relevant information

We could look at how to set the interview questions

Could this training be combined with managing allegations?

We had time to do some more in depth scenarios

Run 2 sessions so that we had more time to look at examples or work through cases

Allow time for individual support at the end
