

# Quality Assurance Policy

## 1. Introduction

Jill Webb Training (JWT) strives to offer a high quality training experience on all occasions. This Quality Assurance Policy outlines the belief and commitment of JWT to ensure that on-going quality improvement is an integral part of our organisation. JWT will aim for continuous improvement in the quality of all aspects of its work as part of its determination to help learners achieve the highest possible standards.

## 2. Purpose

The purpose of the Quality Assurance Policy is to ensure continuous improvement through a process of self-evaluation and action planning. The Quality Assurance Policy and related procedures will involve all those associates who work on behalf of JWT.

The aim of this Policy is to encourage continuous improvement in the quality of all teaching and learning programmes, thereby making learning an enjoyable activity and through this, increasing learner retention and the achievement of individual learning aims.

## 3. Implementation

The quality assurance procedures will be founded in a process which starts with the issue of high quality joining instructions for courses where possible. These outline expectations of learners and what learners can expect from JWT.

A sample of these is found in Appendix A.

During the course, learners are encouraged to provide informal feedback at any time. At the end of the course, learners are issued with an Evaluation Form (sample shown at Appendix B). These are collated and reviewed for each course. An example of this can be found in Appendix C.

Wherever appropriate, the quality procedures will promote the identification of quality standards and performance indicators against which performance can be measured, evaluated and improved: eg Ofsted inspections.

### 4. Assessment

Where a course contains formal assessment, JWT is committed to ensure rigorous, standardised and consistent assessment procedures, which meet the standards of external validating agencies are in place.

Full details can found in the Fair Assessment Policy.

### 5. Procedures

When external consultants/associates are used, the following procedure will take place:

When?	What?
<b>Initial QA Checks</b>	All consultants who carry out training will hold an adult teaching qualification and basic safeguarding training. They will have the qualifications and experience to deliver the training identified. Where the courses delivered involve assessment, consultants will hold a qualification in assessment. Appendix D sets out qualification requirements for different courses.
<b>On-going Checks</b>	Consultants will be required to demonstrate a level of CPD appropriate to the course they deliver.
<b>Feedback</b>	All feedback forms will be overviewed by Jill Webb. Associates are observed when training on a regular basis.
<b>Use of Feedback</b>	Feedback from courses, observations and internal verification, as appropriate, will be used to identify any future learning needs.
<b>Internal Verification</b>	Internal Verifiers will hold a teaching qualification, an Internal Verifier qualification or be suitably experienced in assessing the qualification delivered.

*This policy will be reviewed every three years or earlier if a change in legislation, working practices or feedback from clients or partners necessitates.*

*This policy was reviewed and updated in August 2023 and no issues had been received.*
